SUMMARY

Software Systems Development Graduate, skilled in Web application development and Cloud Computing. Academic training in AWS Cloud with foundational knowledge of cloud infrastructure and deployment concepts. Adept at building clean, responsive, and functional applications through academic and personal projects. Seeking the opportunity for a role to apply my technical skills in real-world development environments.

WORK EXPERIENCE

Frontend Developer Intern, ByteToc Computing

Nov 2022 – Feb 2023

- Designed responsive website layouts (**HTML & CSS**) for client projects.
- Developed databases and functionalities with **PHP**.
- Assisted in resolving errors during testing phase.

Software QA Tester Intern, Cardbiz Group of Companies

June 2025 – Dec 2025

- Created **test cases** and performed **functional testing**, **smoke testing** and **retesting** for multiple client projects using tools such as **QASE** and **ZOHO**.
- Performed **load/performance testing** using **Apache JMeter**.
- Created and update documents such as **User Manuals**, **User Requirement Specification (URS)**, **UAT Reports**, and **flowcharts**.
- Gained hands-on experience in software testing, project coordination and technical documentation

Part-Time Event Staff. Timeout Solutions

2023 – 2024

- Assisted in the setup, coordination, and execution of events, ensuring smooth operations.
- Worked in dynamic and fast-paced environments, adapting to changing needs
